## Top Skills

TIBCO

Amazon Web Services (AWS)

Microsoft Azure

## Certifications

Talend Cloud 7.0

Amazon Web Services Solutions  
Architect Associate

# Abhishek Gupta

Data Engineer | ProServe at Amazon Web Services (AWS) |  
BigData, Cloud, Data Integration & Data Quality  
Greater Atlanta Area

## Summary

Enabling clients to achieve a 360 view of the data by implementing Data Warehouse or Data Lakes or Data Marts to become completely Data Driven using a self-service platform utilizing various cloud technologies (AWS/ Google Cloud/Azure/Snowflake). Building client relationships by providing technical solutions to enhance business profitability and speed to market.

Technical skills - AWS certified Solution Architect, Technology Consulting, Analytics, Databases, Big Data, IoT, ETL, MicroServices, Deep Learning, Artificial Intelligence.

---

## Experience

Amazon Web Services (AWS)  
Data Engineer  
May 2019 - Present

Talend  
Senior Consultant  
May 2018 - May 2019 (1 year 1 month)  
Greater Atlanta Area

- Worked with clients to deploy, manage and audit the best practices of Talend software products related to Big Data (Cloudera, AWS EMR), Streaming (Kafka, Spark), Cloud (AWS, Azure) and ETL technologies.
- Provided architecture reviews, application discussions and prototype(s) and development review for clients to achieve a 360 view of the data by implementing Data Warehouse/ Data Lakes/ Data Marts, enabling them to become completely data driven using a self-service platform.
- Provided consulting services to achieve data ingestion from heterogeneous sources to provide a single truth of data to meet client's desired data quality, BI and machine learning needs.
- Performed clients' system analysis to recommend appropriate business systems and IT infrastructure to deploy a scalable Talend architecture.

- Performed data and application integration design and development, technical product assistance and tuning to meet clients' performance and functional requirements.

## Macy's Technology

### Lead Software Engineer

April 2015 - May 2018 (3 years 2 months)

Greater Atlanta Area

- Led a variety of integrations projects with different legacy and non-legacy systems for consumers ranging from online Macys.com to physical stores across the globe.
- Led the implementation of data ingestion pipeline into Hadoop/SPARK ecosystem to support Data Science Teams to achieve data-driven decision-making capabilities.
- Led Data integration project which involved migration of an on-premise application to Azure Cloud involving inter-continental replication using Azure's Cosmos DB. This project helped the company to launch Macy's China online store through an omni-channel approach to create a global presence.
- Implementation of a self-service platform for business users to retrieve business reports using Tableau and Chat-Bots.

## TIBCO

### Senior Technical Lead

August 2012 - April 2015 (2 years 9 months)

San Francisco Bay Area

- Worked with customers ranging from retail to banking to provide integration solutions based on BUS and API architecture.
- Worked with customers to resolve issues for TIBCO Administrator, TIBCO Designer, TIBCO TRA, TIBCO Enterprise Administrator and Silver Fabric products which enhances the TIBCO product adaptation for the customers.
- Helped external and internal customers to debug and solve problems that may arise during the implementation of complex solutions.
